MATERIALS & FINISHES

OPTIONS & ADD-ONS

Designed and manufactured in the USA. Choose your approach, select your finishes, add what matters to you.

Step *Inside.*

Design *Philosophy*

The Ranch is a three-bedroom family home built from four precision-engineered modules—each factory-completed, then professionally joined on your site to create 1,400 square feet of seamless, quality living space.

This is the efficiency of modular construction at family-home scale. Real bedrooms. Functional spaces. Room to grow. Built to last.

CONCEPTUAL RENDERINGS | FARMHOUSE PACKAGE | INTERIOR ADD-ONS SHOWN

Welcome *Hōme*.

CONCEPTUAL RENDERING | FARMHOUSE PACKAGE

The *Primary* Bedroom

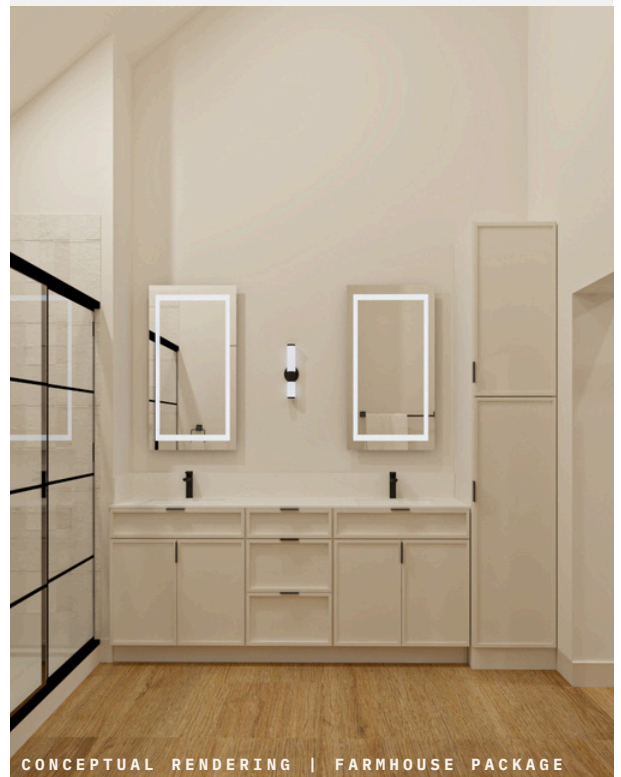

REST + RETREAT

The primary bedroom offers true separation from the main living areas—vaulted ceilings and generous square footage create a private retreat designed for rest, not just sleep.

The *Primary* Bath

FUNCTIONAL + REFINED

Double vanity. Dedicated storage. Walk-in tile shower. The primary bath is built for real life—thoughtful layout that eliminates wasted space while giving you everything you need for your busiest mornings.

NEXT STEPS

Let's *build.*

The Ranch is available now—four factory-built modules, professionally joined on your site to create 1,400 square feet of quality family housing. Designed and manufactured in the USA to make home ownership attainable without compromise. Whether you're building for family, workforce, or community, we're ready to help you get started.
